TOOLS & SKILLS

`Notion API` `Slack` `Zapier` `Claude + MCP` `GoHighLevel` `Google Sheets` `Excel` `JavaScript` `Next.js` `Vercel` `RFI / RFP / RFQ` `Demand planning` `KPI design` `SOP writing`

BEYOND WORK

Cricket captain, U15 & U17
Media club announcer & presenter

Profile

Operations professional with a supply chain and procurement background who turns manual, repeated work into live systems. I design the data structure, build the dashboard or automation, test it on one client and roll it out with an SOP. My tools are used daily by product owners, a strategy team and leadership.

Experience

Operations & Community Manager

`Sep 2026 – Present`

Social media personal branding agency · Remote

- Run operations and member engagement for the agency's paid community, including fortnightly sessions, events and guest speakers.

Operations & Product Executive

`May 2026 – Present`

Social media personal branding agency · Remote

- Designed the Notion **Project Tracker** (73 properties per client) that is the agency's single source of truth, plus the Phase Performance Archive and Weekly Audit Records databases.
- Built **6 live dashboards and tools** on the Notion API and Vercel, including a Strategy Execution Dashboard tracking **241 ideas across 27 clients** and a PO Pace Dashboard checking **33+ client boards** every refresh.
- Cut monthly client reporting from **~2 hours to 8–10 minutes** per client with a Report Builder, saving an estimated **50+ hours a month**.
- Automated client onboarding, Notion-to-Slack canvas sync, a daily 6 PM idea-logging flag bot and strategy-idea routing with Zapier.
- Run weekly performance audits for ~35 clients to catch execution and creative risks early.

Intern, Group Sourcing & Supply Chain

`Jun 2025 – Dec 2025`

MAS Holdings (MAS Capital) · Procurement – Services · Colombo

- Supported RFI, RFP and RFQ processes, coordinating suppliers and internal teams and consolidating proposals.
- Built Excel pricing and vendor comparisons across machinery rental, consumables, telecoms, freight, insurance, meals and stationery.
- Evaluated courier pricing (DHL, FedEx, UPS, Aramex, SR Air) and insurance RFQs; ran the machinery rental platform and supplier onboarding.

Selected systems

Strategy Execution Dashboard

`Notion API · GoHighLevel · Vercel`

7-day check-by per strategy idea; overdue, bottleneck and PO performance views.

Monthly Report Builder

`CSV parsing · Notion API`

Four steps to a client-ready PDF; goals auto-fill from the Project Tracker.

PO Pace Dashboard

`Notion API · Google Sheets API`

Flags late content by urgency using each client's review lead time.

POD Task Tracker

`Claude + Slack · Next.js`

Weekly report from daily Slack updates: 1,313 tasks across 11 POs in 3 weeks.

Projects & leadership

Project AURA · Founder

`2024–25 · Finalist`

Energy-harvesting apparel; Sri Lanka × France team.

Project C3S · Lead

`2024`

Supplier portal for stock alerts and order tracking.

Samsung P1 Pro · Lead

`2023`

Purchasing strategy: sourcing, JIT, ERP.

Community · Group Leader

`2022–23`

Goods for 130 staff; 500 plants for farmers.
